and verbal  
Unflappable

---

## Education

Preservation Carpentry  
North Bennet Street School  
Boston, MA

### A.A.

Santa Rosa Junior College  
Santa Rosa, CA

## Professional Profile

I am a designer with a passion for learning and empathetic problem solving. UX design allows me to draw on the entirety of my skillset, combining keen observation and a thoughtful approach with organization, personability, and an inquisitive nature. I bring a unique perspective to any challenge. A successful career as a director, supervisor, consultant, designer, and carpenter within a prestigious National Historic Landmark and independently owned small businesses has made me well-rounded and versatile.

---

## Recent project

Conceptual app and responsive website design  
transPARENT

The final project for my Google UX Design Professional Certification. As the sole designer, I conducted competitive analysis, created user flow, conducted interviews, wire framing, low and high-fidelity prototyping, usability studies, and design iteration.

---

## Work Experience

### Director of Cemetery Services

Mount Auburn Cemetery | Cambridge, MA  
2018 - 2022
